

Bondan Adhiguna

E-Colors:

Green / Blue

Current position:

Coach

When I joined Equilibria:

January 2006

Why I joined Equilibria:

Between 2002-2204 I was heavily involved in people development and Health & Safety. During that moment I realized that I enjoyed to help and developing people around me. When Equilibria was formed in 2004 I know that this company will be able to provide plenty self-development opportunities for me to do what I enjoyed most.

On top of that, I know the quality of the four founders of Equilibria very well, and strongly believe of the 'power' of Equilibria.

My professional background:

I started my experience in Oil-Gas industry with an international drilling company in 1995. From a field on-job-training through several different posts, Operation, Technical, Shipyard Projects, Marketing, Human Resources, Safety and Training. Those assignments required me to be posted on several different countries.

I'm also still involved in Well Control and Management of Major Emergency training.

My educational background:

I hold a Bachelor degree in Mechanical Engineering

I am Certified by IADC as a Well Control Instructor

I am a Management of Major Emergency Training Instructor

My family and general interests/hobbies:

I'm married my Blue/Green wife Endah in 1996.

I have two sons that were born in 2001 and 2004.

I'm interested in Photography and I like to read good self-development and leadership books. I enjoy an occasional game of golf with friends and cycling with my family during the weekend.
