**Current position:**

Level I Coach

**When I joined Equilibria:**

January 2011

**Why I joined Equilibria:**

I had the opportunity to be involved in two placements with Equilibria at the head office in Thailand; the placements were an excellent experience to understand how Equilibria operate and who they are as a company.

After completing my studies, I had multiple choices to start my professional career. I chose to join Equilibria because of what I had seen and what the future can hold. Due to my nature, the prospect of being able to make a difference in people's lives was a key element of my decision.

I believe that Equilibria is the best organization for me to realize my full potential and help others to realize theirs, thus creating a win / win situation for everybody.

**My Professional Background**

Two intern placements with Equilibria focused on Project Management and Business Research & Development.

**My educational background:**

- MBA at Valencia International Business School, Spain
- BA Business Administration with Marketing at University of Brighton, England

My educational background is in the area of Business. Having studied in this area I realize the importance of optimizing effectiveness in organizations. The fundamental way for companies to do this is investing in their most valuable resource – People.

**My family and general interests/hobbies:**

As a people-oriented person, I enjoy spending quality time with my family and friends.

I am interested in developing and learning from the people I know and the people I meet. I firmly believe that if one is aware, life is full of lessons that can help you have an enhanced understanding of people and how things work for them.

My hobbies include playing golf, tennis and football.
